Under attack

Governing Council election winners

The Hon. James Auld, Minister of Colleges and Universities (far right), was under fire twice at U of T last week: first, a thinly attended Progressive Conservative meeting in Hart House, where the picture was taken (above, *in absentia*) at a rally of about a thousand in Convocation Hall (right). There Gordon Barnes, president-elect of SAC (above), was one of several speakers who denounced the financial restrictions on universities.

Relief unlikely, Auld warns

The effects of new provincial government spending priorities on the University's quality of education, tuition levels, salary scales and faculty appointments policy came under intense discussion last week at two radically different open meetings.

More than 1,000 members of all estates in the University community assembled in Convocation Hall March 26 for two hours of speeches and comments by representatives of several campus organizations. Without exception the speakers attacked, often bitterly and at great length, the government's budgetary guidelines. At the conclusion of the meeting those remaining in the Hall overwhelmingly endorsed a resolution condemning the government "cutbacks".

It was a far different scene two days earlier in the Hart House debates room where only 50 people gathered to hear the Hon. James Auld, Minister of Colleges and Universities, defend the contentious new spending program

as "not unreasonable given the availability of provincial resources". Mr. Auld warned the sparse audience that the percentage of provincial revenues now going into post-secondary education is "unlikely to change".

Prof. David Gauthier, for the Faculty Association, opened a bitter attack on the provincial government whose "wild and rash development policies in the sixties", he said, are a prime cause of the present situation. The "legitimate career expectations" of faculty members hired during the expansion of the past decade are being sacrificed and many of the ablest, most productive teachers may leave the University, Prof. Gauthier warned.

"The University will increasingly cease to become a centre of vital intellectual activity," he predicted. In reply to a question, Prof. Gauthier insisted faculty are opposed to any government concept that equates "productivity" with the "number of students a

professor can process through the system."

Judy Darcy, president of CUPE Local 1230 representing approximately 430 library workers, called for greater "financial recognition" for the work done by the support staff and said it is an "undeniable fact" that campus workers are underpaid.

David Priddle, past president of the Staff Association, told the meeting support staff should not be forced to subsidize the increasing cost of university education "by accepting ever-decreasing salaries."

Jay Drydyk, representing the Graduate Assistants' Association, said graduate students don't have a standard of living but rather a "standard of going into debt". He urged the University to "call off the dogs" and halt its attempts to prevent GAA from winning certification as their bargaining agent for teaching assistants.

Gordon Barnes, president-elect of the Students' Administrative Council, argued that the government "ignores the consequences" for the quality of education that would result from its declared intention to increase the student-teacher ratio.

Frank McIntyre, outgoing president of the Graduate Students' Union, closed the meeting with an announcement that the coalition steering committee which organized the forum would continue its work during the summer and prepare strategies for consideration in the fall.

Mr. Auld states his case

There were few signs of solidarity and no warm applause on March 24 when Mr. Auld presented his case to a skeptical audience of student council lead-

Continued on Page 3

6000 in need of jobs

Hiring a student this summer?

The familiar government slogan likely applies to many University staff members who have temporary jobs to offer students during the summer months.

Such staff members are encouraged to use the facilities of the Career Counselling and Placement Centre, says director Rivi Franklin, even if the jobs in question are totally unrelated to the University.

Jobs may be listed free of charge simply by phoning Mrs. Eve Paley at 928-2537. Detailed information about the job, including any preferred academic or work background required, would be helpful, since more than 6,000 students will be using the Centre to find jobs during the summer.

Members of the academic and support staff who expect to have part-time or temporary positions available for students next fall may list these openings with the Placement Centre free of charge. There is also an on-going Job Registry for permanent off-campus employment.

Graduate students planning an academic career may use the Centre's confidential dossier service by telephoning 928-2543.

Results of the mail balloting for 1975-76 Governing Council members in five teaching staff and all student constituencies have been announced.

Those elected were:

Teaching staff constituency I — Prof. Bennett Kovrig, Political Economy; *II* — R.W. Missen, Chemical Engineering; *III* — James W. Meakin, Medicine; *V* — W. Barry Coutts, Law; *VI* — George A. Reid, Education. (Two professors were elected last month by acclamation: Maurice W. Lister, Chemistry, in Constituency 1E and Michael Bliss, History, in 1F).

Graduate student constituency I — Bryan E. Wall (Seymour Kanowitz, president of the 1974-75 Students' Administrative Council, was elected by acclamation in Constituency 1I).

Full-time undergraduate constituency I — Michael Sabia and John J. O'Donohue, Arts and Science. (An appeal by J. Bradford Nixon, who alleged an irregularity in the balloting procedure, was denied by the election overseers. Mr. Nixon placed fourth in the election); *II* — Tim Buckley, Engineering; John Floms, Medicine.

Both 1975-76 representatives of the Part-time Undergraduate Student constituency were chosen by acclamation. They are Jonathan F. Gentry and Felix M. Salazar.

Details of the election results on Page 2.

Task force urges need for 'watchdog' group

The preliminary report of the Task Force to Study the Status of Non-academic Women at the University of Toronto came under close discussion twice on Wednesday, at an open noon-hour meeting attended by four members of the Task Force and approximately 35 members of the University staff, and later at a sparsely attended meeting of the Business Affairs Committee of Governing Council.

Task Force recommending positive directions

In presenting the draft report to the Business Affairs Committee, Prof. Gary Thaler said the Task Force had encountered an "incredible multiple of concerns" from the non-academic staff and had decided to recommend "positive directions" in three main areas — career development, assured progress through salary ranges and elimination of sexual bias, and the creation of a permanent standing committee to oversee implementation of approved policies.

He stressed the need for the permanent "watchdog" committee and expressed the hope that the final recommendations from the Task Force would be considered by Governing Council at its June meeting.

The meeting learned that the University experiences a 35-40 per cent. rate in annual turnover among its non-academic staff, par-

ticularly among employees working in Simcoe Hall and the Personnel Department. Several members, most notably government appointed Sidney Hermant, expressed a great interest in learning the reasons for what was described as "an unusually high turnover rate".

Alan Rankin, Vice-President — Business Affairs, asked the Task Force for specific recommendations on methods of implementing its "positive directions".

"Major faculty" recently filed a motion without any internal or external advertising whatsoever "despite recent adverse publicity relating to this practice", Mr. Rankin added.

Prof. Barry Coutts suggested the University should distinguish between "relevant and irrelevant academic backgrounds" when formulating job descriptions.

Council election results

The following are the results of the Governing Council election for 1975-76 members:

TEACHING STAFF

CONSTITUENCY ID - (1 seat) - All teaching staff members in Arts and Science who hold their major appointments in anthropology, geography, history, philosophy, political economy, sociology, psychology, excluding those with their major appointments at Scarborough or Eindale.

Valid ballots - 137; spoiled ballots - 0

Votes received:

Brownstone, M. - 50
Kovning, B. - 87 (elected)

CONSTITUENCY IE - (1 seat) - All teaching staff members in Arts and Science with their major appointments in astronomy, chemistry, computer science, geology, mathematics, physics, botany, zoology, excluding those with major appointments at Scarborough and Eindale.

Lister, M. (acclaimed).

CONSTITUENCY IF - (1 seat) - All teaching staff members in Arts and Science, except those who hold their major appointments at the federated universities and those with major appointments at Scarborough or Eindale.

Bliss, M. (acclaimed).

CONSTITUENCY II - (1 seat) - All teaching staff members in Applied Science and Engineering.

Valid ballots - 140; spoiled ballots - 1

Votes received:

Missen, R.W. - 110 (elected)
Rimondi, F.P.J. - 30

CONSTITUENCY III - (1 seat) - all teaching staff members

in Faculty of Medicine.

Valid ballots - 460; spoiled ballots - 0

Votes received:

Carver, J.P. - 67
Meakin, J.W. - 394 (elected)

CONSTITUENCY V - (1 seat) - All teaching staff members in Architecture, Urban and Regional Planning and Landscape Architecture, Management Studies, Forestry, Law, Music, Social Work.

Valid ballots - 77; spoiled ballots - 0

Votes received:

Coutts, W.B. - 51 (elected)
Scane, R.E. - 26

CONSTITUENCY VI - (1 seat) - All teaching staff members in Education, Graduate Department of Educational Theory, Library Science.

Valid ballots - 107; spoiled ballots - 0

Votes received:

Bancroft, G.W. - 51
Reid, G.A. - 56 (elected)

GRADUATE STUDENTS

CONSTITUENCY I - (1 seat) - All students in Division I (Humanities) and Division II (Social Sciences) of School of Graduate Studies, with exception of Graduate Department of Educational Theory.

Valid ballots - 375; spoiled ballots - 7

Votes received:

Loob, K. - 169
Wall, B.E. - 206 (elected)

CONSTITUENCY II - (1 seat) - All students in Graduate Department of Educational

Theory; Division III (Physical Sciences) and Division IV (Life Sciences) of School of Graduate Studies.

Kanowitch, S. (acclaimed).

FULL-TIME UNDERGRADUATE STUDENTS

CONSTITUENCY I - (2 seats) - All students registered in Arts and Science including Eindale and Scarborough.

Valid ballots - 2320; spoiled ballots - 22

Votes received:

Berlingham, T. - 802
Ellis, R.F. - 166
Handler, I. - 150
Nixon, J.B. - 637
O'Donohue, J.J. - 854 (elected)
Parker, J.L. - 445
Sabia, M.J. - 1029 (elected)

CONSTITUENCY II - (2 seats) - All students in faculties and schools other than Arts and Science (with the proviso that both members elected in Constituency II must be registered in the same faculty or school, and that, if a member elected while registered in one faculty or school later registered in the faculty or school in which the other elected member is registered, the transferring member shall resign his seat).

Valid ballots - 1,434; spoiled ballots - 10

Votes received:

Buckley, T. (APSC) - 756 (elected)
Floras, J. (Meds) - 734 (elected)
Gerhart, D. (APSC) - 228
Levitt, H. (Law) - 564
Skolnik, R. (APSC) - 230

PART-TIME UNDERGRADUATE STUDENTS

(2 seats) - All part-time undergraduate students.

Gentry, J.F. (acclaimed)
Salazar, F.M. (acclaimed)

RESEARCH NEWS

Canada Council General Grant Fund

The Humanities and Social Sciences Committee of the Research Board has cancelled the May 31 deadline for applications to the Canada Council General Grant Fund. The Committee felt it unnecessary to hold a meeting when many staff members would be absent for the summer. The next deadline will be in September.

The July competition for funds from the Canada Council general grant has been eliminated. Applications for research support during the summer must be submitted by April 14. Awards will be announced before the end of April. The chairman should nominate a referee for the application when endorsing it.

Canada Council Research Associateships

As of April 1, 1975, Canada Council will pay 100 per cent. of the salary of a research associate provided he spends 100 per cent.

Federal multicultural program gives U of T visiting professor

Prof. S. Sidlofsky

Samuel Sidlofsky has been employed this academic year as the University of Toronto's Visiting Associate Professor of Canadian Ethnic Studies. He holds joint appointments in the Departments of Italian Studies and Sociology in the Faculty of Arts and Science.

Prof. Sidlofsky's invitation to Toronto was arranged as part of the Secretary of State's Multicultural Program and was one of three such appointments in Canadian universities this year. The others were from the University

of Alberta to Carleton and from Laval to Mount Allison. Prof. Sidlofsky is on leave of absence without salary from the University of Guelph.

Dr. Sidlofsky, a sociologist, is a graduate of the University of Toronto. His doctoral thesis examined the role of the residential construction industry in the integration of post-war Italian immigrants to Toronto. His ongoing research interests focus on occupations, professions and ethnic communities in industrial society. While at Toronto, he has given two courses through the auspices of the Faculty of Arts and Science's Interdisciplinary Studies Program: Ethnic Groups in Industry and Ethnic Professions.

Dr. Sidlofsky's invitation to the multicultural program is to undertake a preliminary study of the role of the small entrepreneur in "immigrant industries" within the ethnic communities.

Prof. Sidlofsky recently was the co-author (with G.J. Goodings) of a brochure *Women in Engineering* on behalf of the University of Toronto's Faculty of Applied Science and Engineering. It has been used as a career guidance source in all of Ontario's high schools and has contributed to the recruitment of young women into the engineering profession.

OCUFA seeks executive associate

Applications are now being sought for the position of executive associate with the Ontario Confederation of University Faculty Associations. The successful applicant will work closely with the executive vice-chairman in serving the professional needs of university faculty members in the province. He or she is probably now an assistant or associate professor at one of Ontario's 15 provincially assisted universities, and OCUFA will accommodate an applicant who wants to retain a

reduced teaching appointment at her or his university. Applications from those with other than specifically academic backgrounds are not precluded.

The appointment will begin July 1, 1975, with salary and term of appointment to be negotiated.

Applications, including a *curriculum vitae* and the names of three referees, should be sent as soon as possible to the chairman, Selection Committee, OCUFA, 40 Sussex Ave., Toronto, M5S 1J7.

Carrel applications due now for summer

Applications for carrels and book lockers for the summer session will be received from graduate students and faculty members from April 1 to May 2. Application forms are available at the Circulation Desk, 4th Floor, Roberts Library. Assignments to students will be

made on the basis of priorities decided in consultation with the appropriate graduate departments.

Assignments for the summer session (May 12 - Sept. 13) will be made in the carrel office, Circulation Department on and after May 12.

SYNAESTHIA, my love, an exhibition of sculptured relief painting by Deborah Barkhouse, student in the Fine Arts Studio course, Scarborough College. Meeting Place Gallery, Hours Monday-Friday, 9 a.m. to 9 p.m. Sunday 2.30 to 5 p.m. To April 8.

Davies Jones, 1895-1974, Poet and Artist. In the exhibits area, Roberts Library. To April 16.

The Art of the Ukrainian Easter Egg. In the exhibits area, Roberts Library. To May 7.

EXHIBITIONS

Continued from Page 1

Establishment of a quota system in order to implement the draft recommendations of the Task Force to Study the Status of Non-academic Women at the University would likely result only in "reverse discrimination," the chairman, Prof. Gary Thaler, said at the first meeting sponsored by the Task Force.

Prof. Thaler told the audience of approximately 35 in a Pharmacy lecture room that "the climate would be better" for effective implementation of the Task Force report but he could not endorse quotas as a viable means of remedying existing inequities.

Re-education is needed

He conceded that many administrators are appointed on the basis of their scholarly and not administrative abilities" and suggested that a continuous process of re-education would be necessary.

Anne-Marie Jamieson, a Task Force member, said female employees should have a better chance of obtaining promotions because regulations now specify that no job can be filled from outside the University unless it is clearly demonstrated there are no suitable inside candidates.

She also rejected a quota system, calling it "the drop of water

that might cause the whole bucket to spill." Political realities dictate that the Task Force present only "realistic recommendations that can be implemented," Mrs. Jamieson said.

Prof. Thaler and Mrs. Jamieson joined fellow Task Force member, Gwen Russell, in stressing that the recommendations of the new review or monitoring committee "with teeth" to oversee personnel practices is perhaps the most important aspect of the study.

Mr. Russell echoed the fears expressed by several members of the audience who complained that the current investigation into the working conditions of grant-supported staff would produce a "white wash." The investigating committee "didn't even bother to call for input from the 2,000 grant-aided employees," said a member of the audience.

John Parker, manager of labour-management relations, told the meeting "students have indicated how to force changes in the University" and urged the female staff to convey their opinions to the administration "so that this excellent report doesn't get lost."

Greater publicity urged

Mrs. Jamieson urged the non-academic staff to become more publicity-conscious. "Staff apathy has always been the curse of this University," Mrs. Russell said the

climate for employee relations is now "very good" and staff members should not hesitate to make their complaints known, perhaps in letters to members of the Governing Council.

The meeting also heard suggestions for increased use of the *Bulletin* as a forum for staff opinion and the possibility of creating a special newspaper devoted to news affecting the non-academic staff.

The Task Force will hold a second open meeting Tuesday April 8 from 12 noon to 2 p.m. in room 3153, Medical Sciences Building. Its final report will be submitted to the Business Affairs Committee later this month and to the May meeting of the Internal Affairs Committee.

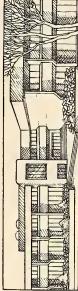

The Task Force will hold a second open meeting Tuesday April 8 from 12 noon to 2 p.m. in room 3153, Medical Sciences Building. Its final report will be submitted to the Business Affairs Committee later this month and to the May meeting of the Internal Affairs Committee.

The University of Toronto's Erindale campus enrolled 150 full-time students when it opened in 1967. Now in its eighth year of operation, just over 3,000 full-time and 1,000 part-time students are taking courses towards baccalaureates in Arts, Science and Commerce. Anticipated full-time enrolment in 1975-76 is 3,500 with an expected levelling off at this figure for the next few years.

The teaching responsibilities of the Erindale campus are primarily at the undergraduate level, but the number of graduate students on campus this year has increased to the point where an Erindale Graduate Students' Association has been formed.

A very large amount of research is conducted on the Erindale campus. In addition, all Erindale professors are cross-appointed to departments on the St. George campus, and they contribute to the work of the Graduate School and all facets of the University's operation.

New student aid programs

Details of \$4.7 million worth of student assistance programs, including two new programs, were announced in the Ontario Legislature March 18 by the Hon. James Auld, Minister of Colleges and Universities.

The new programs are the Ontario Student Loans Plan, which is intended to help many of the students ineligible for aid from the federal government's Canada Students Loans Plan, and the Ontario Special Bursary Program, which will provide up to \$500,000 to help the most needy part-time students.

Mr. Auld also announced that expenditures on the Ontario Student Assistance Program (OSAP) will be increased by approximately 16 per cent. to \$46.55 million. The total amount of OSAP for students living away from home will be increased to a maximum of \$57.50 a week, up 18.5 per cent. from a maximum of \$48.50 a week in the current year.

First \$800 is a loan

Over a normal academic year students eligible for assistance receive the first \$800 as a loan under the federal Canada Student Loans Plan. Students who qualify for additional assistance receive it from the province in the form of a non-repayable grant.

Mr. Auld said that allowances for board, lodging, transportation and miscellaneous expenses for students receiving aid from OSAP and living away from home will be increased, bringing total allowances to \$54.50 or \$57.50 per week.

Mr. Auld repeated a promise

made on Nov. 18 last year that tuition fees in 1975-76 will not be increased.

The minister also announced that the amount parents are expected to contribute to students' expenses will be based on their actual 1974 earnings rather than their estimated 1975 earnings.

What plans will provide

The Ontario Student Loans Plan will provide loans of up to \$1,400 over a normal academic year, to a maximum of \$4,000. The terms and conditions of the loans are expected to be similar to those of the Canada Student Loans Plan, under which no repayment is required [while the recipient is a student] and the loans are interest free until six months after the conclusion of studies. The new Ontario Special Bursary Program will aid people in serious financial need who may be able to improve their financial situation by taking one or more post-secondary courses.

Norma Grindal, president of the Association for Part-time Undergraduate Students, had this to say about the assistance offered to part-time undergraduates:

"The loan and bursary programs for part-time undergraduate students represent a significant improvement over the financial assistance currently available to part-time undergraduates.

"While the APUS appreciates the efforts made by the government in this area, in particular with respect to the interest-free feature of the loan program, we feel that the ultimate elevation of the part-time undergraduate into fully qualified members of the

academic community will only be achieved through a totally integrated CSL/OSAP program."

The following comments on Mr. Auld's announcement were received from Patrick S. Phillips, Director of Student Awards, University of Toronto:

"The increase in board and lodger allowance is a welcome improvement but it is still not adequate and the \$40 figure falls short of the \$45 recommended by the awards officers across the province."

Help for part-time courses

"The present uncertainty in calculating parental contribution has been removed and I expect that some University of Toronto students will benefit from the \$500,000 fund established to aid single parents and the working poor who wish to take some part-time courses. However, it is interesting to remember that the identical sum of \$500,000 was available this year when the ministry operated a pilot project of this nature at only nine post-secondary institutions. Therefore, next year more students will be eligible for assistance but the total amount of funds available will remain the same."

"The \$47 million figure is also somewhat unclear since the press release issued by the ministry does not indicate how much of this figure is for OSAP assistance and how much will be taken up by the numerous other aid programs. However, it is encouraging to see that the government is increasing its level of financial support to post-secondary students."

Relief unlikely says Auld, cut 'frills'

Continued from Page 1

ers and campus newspaper reporters.

The minister quoted statistics illustrating the rapid increase in government spending on education and noted that "over 3 billion dollars" was spent on higher

education in Ontario during the past 15 years. He said that the government spends 2.8 per cent. of the gross provincial product on education compared to an average of 1.3 per cent. in most western countries.

Mr. Auld called for "role specialization" within individual uni-

versities and insisted a "significant job" must be done by the universities in "cutting down frills."

Mr. Auld did not attend nor did he send a representative to the Convocation Hall meeting. The minister was invited on Monday to attend or be represented at the rally on Wednesday.

Liaison committee debates plans

The U of T - City of Toronto liaison committee debated a series of potentially controversial planning considerations for the St. George campus on Tuesday at City Hall.

In response to a list of planning recommendations proposed by several city and Metropolitan Toronto commissioners, the University restated "its present intent" to confine its downtown development to the area bounded by Spadina-Bloor-Bay-Bridge. However, in an important qualification, the University warned that "some constraints which may be proposed which would significantly limit the University's flexibility of use of its space within the boundaries noted might significantly alter the University's ability to adhere to its stated intention to confine developments to within the designated area."

Principal Russell objects

The immediate came under immediate attack from both Alan McAlister, president of the Huron-Sussex Residents' Association, and Peter Russell, principal of Innis College. "The University is far too large to be a manageable and humane place," said Principal Russell in defence of his opposition to any University expansion "regardless of conditions."

"I hope the city will be reasonable and no unreasonable con-

straints will be imposed on the University," he added.

President Evans argued that the University must be granted some flexibility of action in the event some "serious constraints" were applied in the future. "For example, limitations could be put on development in the South-West campus, thus forcing Engineering to expand south of College St.," he said.

University's position opposed

By a 7-2 vote the committee recorded its opposition to the University's position. Principal Russell and Stephen Moses, student member of Governing Council, joined the city aldermen and Huron-Sussex representatives, while Dr. Evans and Alex Rankin, Vice-President, Business Affairs, formed the majority.

The City Department announced that no student complaints had been received after installation of traffic lights at the northern end of Queen's Park, and therefore there is no longer need for a \$182,000 pedestrian underpass at Hart House and Queen's Park Crescent West.

Mr. Moses, during consideration of the University's request "that consideration be given to allowing above-grade connections over closed roadways" as part of the Campus Centre project, argued that such elevated walkways be-

tween buildings are "desirable and humanizing" in a university context.

"This will just create one big building on campus," complained Ald. Alan Sparrow, as the committee voted to endorse the University's request.

The committee voted to make no judgment either pro or con on the University's contention that it should not compensate the city for approximately 11.1 acres of roadways and laneways which either have been already conveyed or will be in the future from public to University use.

The University argued that it has not asked for compensation for any lands conveyed to the city for street widenings or subway construction. It also noted that the city is being relieved of the obligation under its 1889 lease agreement on Queen's Park to contribute \$6,000 annually until the year 2858 for the endowment of two teaching positions.

UTFA - April 10

The University of Toronto Faculty Association annual meeting will be held on Thursday, April 10 at 4 p.m. in the Medical Sciences Building auditorium.

The president, Prof. William Nelson, hopes that all members will attend this very important meeting.

Jeremy Anderson and Miss Charity Grant are seen with the two Casson paintings in the Hart House Collection. A.J. Casson is receiving an honorary degree this spring. Miss Grant is chairman of the Hart House art committee. Mr. Adamson is the curator of the collection.

Ten honorary degrees at spring convocations

The former Chancellor, now Lieutenant-Governor of Ontario, a celebrated Canadian humorist, and two members of the former Board of Governors are among ten persons who will be awarded honorary degrees by the University during the Spring Convocations.

Three of the degrees will be bestowed May 29 at a special convocation marking 100 years of dental education at the University.

The honorary graduands and the convocation dates at which they will be honoured are:

Dr. Claude Castonguay, president of the Government of Quebec Task Force on Urbanization and a member of the steering committee for the Federal-Provincial joint Review of the Canadian Social Security System. He was formerly on the staff of Laval University and from 1970-73 served as Minister of Social Affairs in Quebec. Monday, May 26, 2.30 p.m.

Dr. Roy G. Ellis, Dean of the University of Toronto Faculty of Dentistry from 1947 to 1969. Dr. Ellis is the author of more than 40 publications on dental education and practice, and introduced the diploma program in dental hygiene. Thursday, May 29, 3 p.m.

Dr. Egil P. Harvold, a world authority in the field of oral facial anomalies and facial growth, and organizer of the cleft palate department at the Hospital for Sick Children. Thursday, May 29, 3 p.m.

Dr. Harry M. Worth, formerly chairman of the department of radiology at Wellesley Hospital. He developed the program in oral radiology at U of T, and is regarded not only as a stimulating teacher and dedicated clinician but also as a world authority on

Dainty (Botany), T.S. Parsons (Zoology), B.I. Roots (Zoology/Entomology), G.M. Telford (Zoology), and A.M. Zimmerman (Zoology).

The work of the search committee will be greatly aided if members of the department will forward nominations, comments and suggestions, preferably before April 7.

COMING EVENTS

Items to be included in Coming Events must be received at the Department of Information Services, 45 Wilcocks St., by 4 p.m. of the Friday before the issue of the Bulletin in which they are to be listed.

4 FRIDAY

Lectures

"Policy in the People's Republic of China: Oscillations or Development?" Prof. Andrew J. Nathan, Department of Political Science, Columbia University. Combination Room, Trinity College. 3 p.m. (East Asian Studies Committee, ISP)

"Letter and Spirit in the Canticle of Canticles: A Comparison of the Commentaries of Jean Gerson (1363-1429) and Theodore de Bèze (1519-1605)." Prof. Jane Couchman, Department of General Education, Glendon College, York University. South dining room, Hart House. 8 p.m. (Toronto Renaissance & Reformation Colloquium)

Lecture/Seminar
"Unemployment in India: Dimensions, Causation, Policy." Raj Krishna, senior economic analyst, International Bank for Reconstruction and Development, Washington, D.C. 3050 Sidney Smith Hall. 2-4 p.m. (South Asian Studies Committee, ISP)

Opera
Cosi fan tutte (Mozart). Opera school production. MacMillan Theatre, Edward Johnson Building. April 4, 5, 11, and 12. 8 p.m. Tickets \$3.50, students and senior citizens \$2. with card. Cheques payable "U of T", enclose stamped, addressed envelope. (Music)

5 SATURDAY

Seminar Seminars for Parents series: "Changing Patterns in the Family

16 WEDNESDAY

Radio "Khatina." CJRT-FM (91.1) 10 a.m. and 7:30 p.m. (Islamic Studies and Open College)

17 THURSDAY

Colloquium "Astrophysical Applications of Photon- and Neutron-Induced Nuclear Reactions." Prof. Barry L. Berman, Lawrence Livermore Laboratory, University of California. 102 McLean Physical Laboratories. 4:10 p.m.

Church historians to meet at Knox

Knox College, the University and the government of Ontario will be acting as co-hosts to the American Society of Church Historians on April 18-19 when their body meets separately in Canada for the first time in its 87 year history. The program has as its central theme, "Unity and Diversity in the History of the Christian Church."

Specific sessions will include papers on aspects of such widely diverse topics as: Lutheran and Anabaptist views of the church; Calvinist and Wesleyan theories on the same subject; the role of revivalism in the Canadian and the American experience; Dutch and Scottish ethnicity and religion in North America; the Canadian experiment of church union; and medieval prophecy and religious dissent. Social events of the meetings include a luncheon at Knox College and *vin d'honneur* and dinner in Hart House.

Programs and other information are available from Prof. A.L. Farris, Knox College.

Do you want to learn Russian?

The Centre for Russian and East European Studies in cooperation with the Department of Slavic Languages and Literatures and Woodsorth College announces the 9th annual summer Russian workshop from June 16 to Aug. 11, 1975. The workshop offers an eight-week (200-hour) program both at the undergraduate and graduate levels.

The program offers modern laboratory facilities and a wide range of extracurricular activities which are integrated with the academic program. Tuition fee is \$200. A number of bursaries are available.

For further information and application forms please get in touch with Prof. Irina A. Enevirov, Executive Director, Russian Summer Workshop, Room 5024, Sidney Smith Hall, University of Toronto, Toronto, M5S 1A1. Deadline for applications is April 15.
